

Introduction to HIRT

- HIRT in Action to Fight Security Threats in Far, Far East -

September 8, 2009

2009 WARP Annual Forum, London

HIRT (Hitachi Incident Response Team), Japan

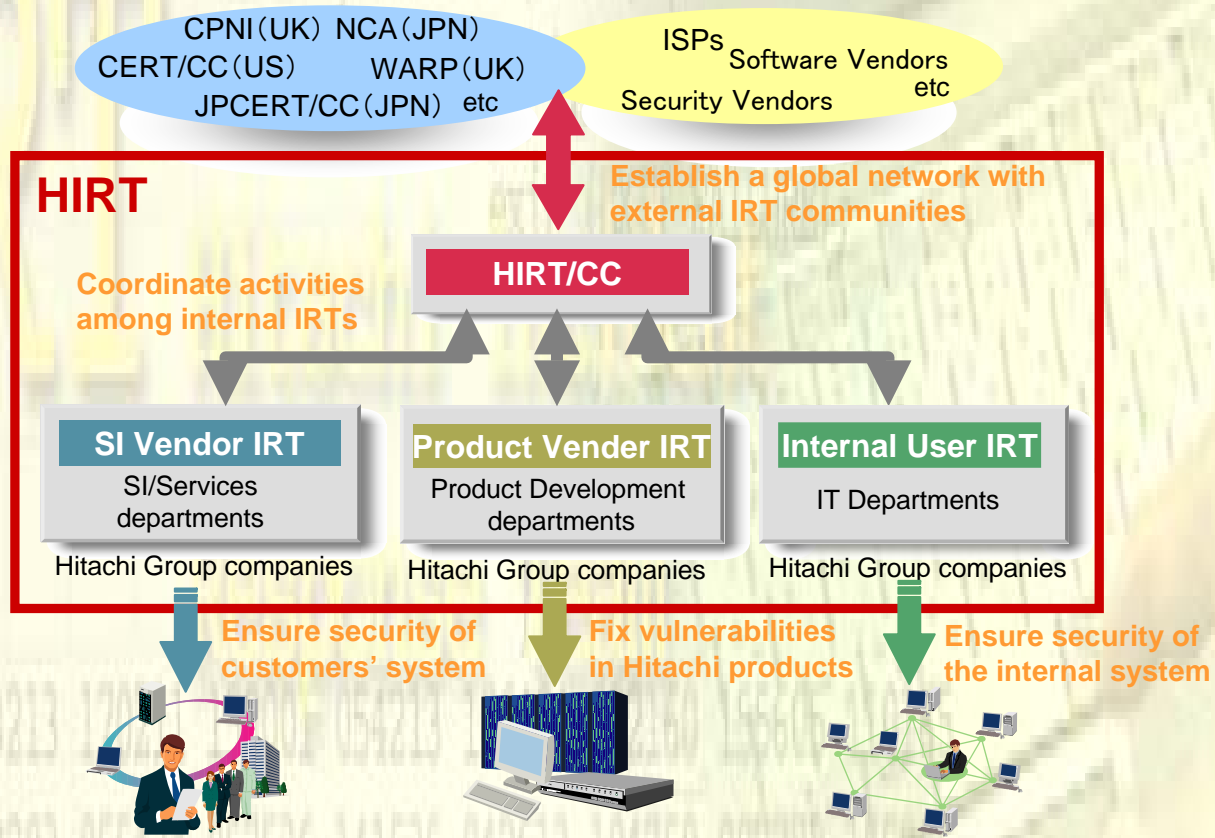

Kazuo Tanaka (Mr. H)

Masato Terada (Ice)

Hiroko Okashita (Ray)

Hisashi Umeki (Todd)

HIRT is a unit of security experts of Hitachi, devoted to help IT users.

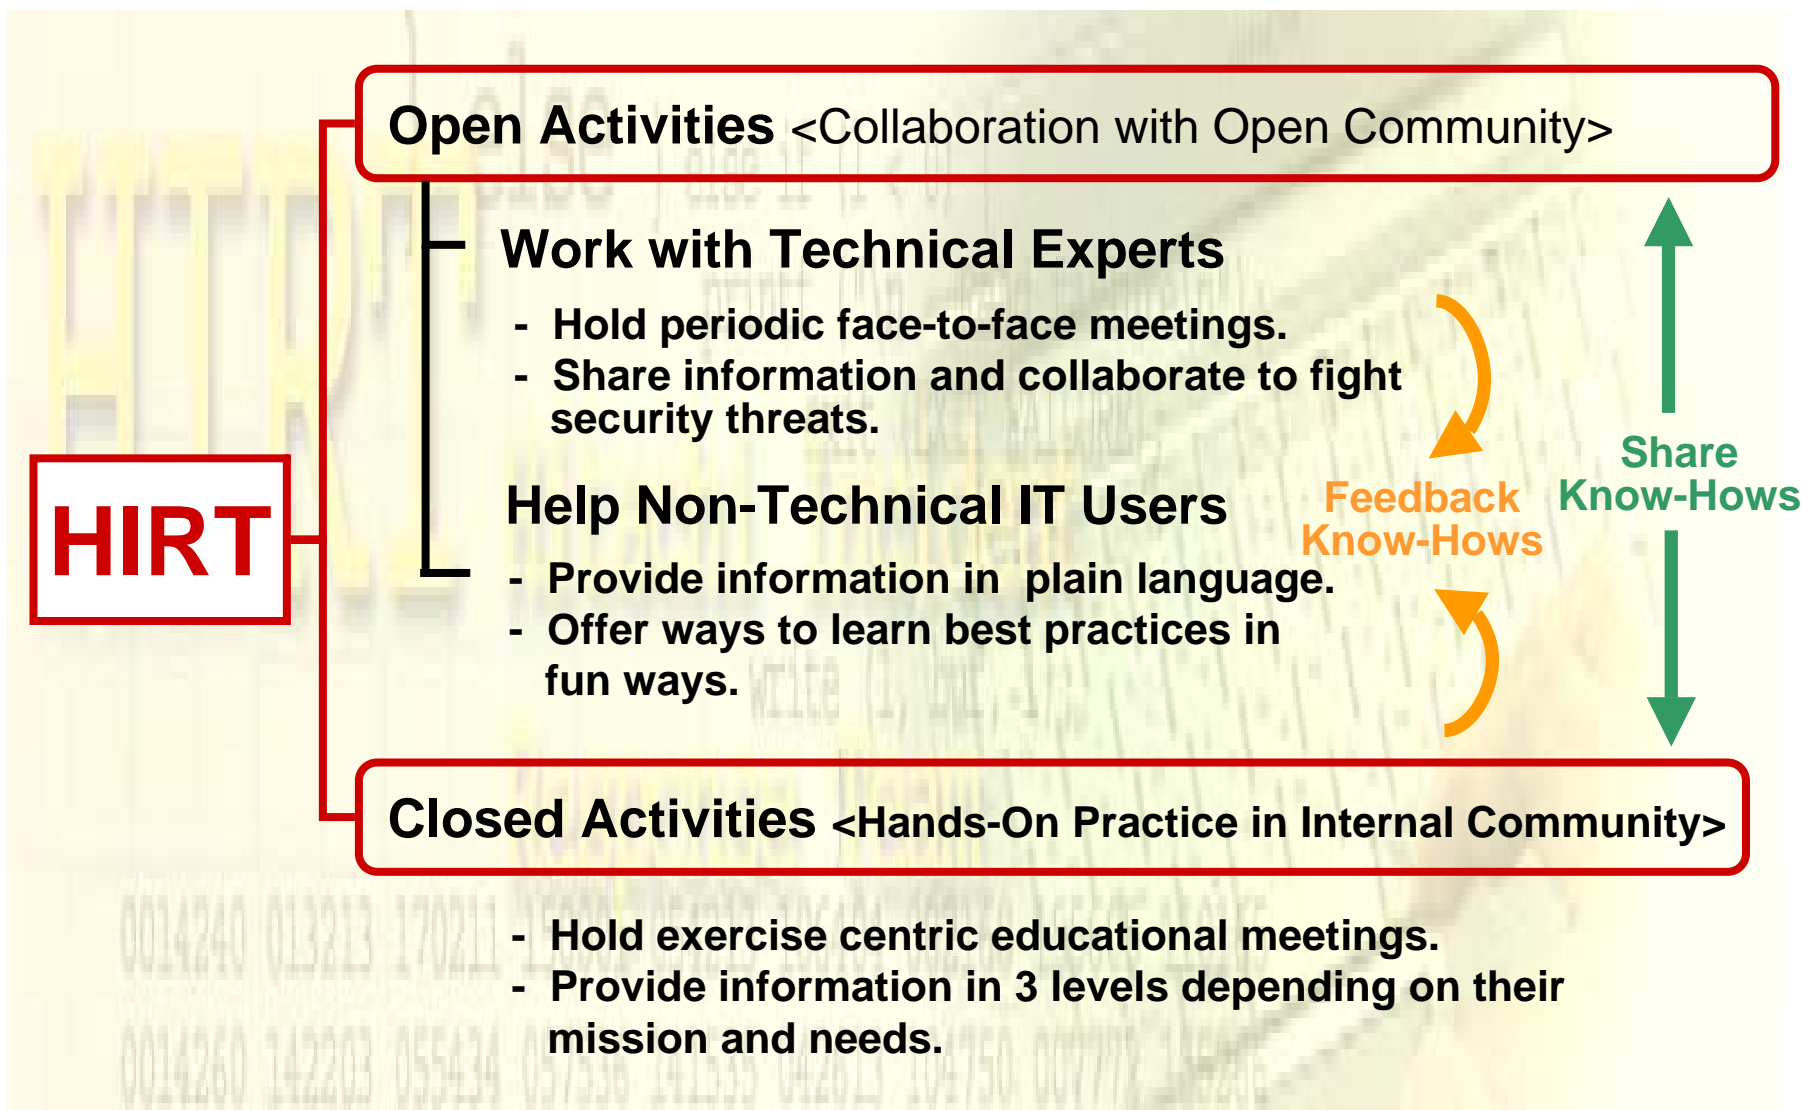

1

What's HIRT?

Take a moment and enjoy an animation movie explaining our mission in James Bond style!

Two Heads and Experiences are Better than One!

- Join security communities and collaborate with external security experts to tackle technical issues together.

e.g.

Nippon CSIRT Association

Warning, Advice and Reporting Point

Japanese Largest Teleco's Security Team

Forum of Incident Response and Security Teams

- Share information, research data, hands-on practices proven in each other's organization to better know threats, causes and countermeasures.

Seeing May not be Enough! Experiencing is Believing!

- Provide IT users information and best practices in easy-to-learn ways.

e.g. An interactive animation tool to experience what-ifs.

Removable media is convenient but could be a source malware infections...

Can you open a file in the USB without getting infected?

Piece of cake?

The users can try selecting the operation they think appropriate.

始めに戻る

What happens if doing it by clicking "AutoRun"???

What if clicking the USB drive icon directly???

The users can virtually experience what happens through their action.

** The tool is available at HIRT Web site (Japanese version only).
http://www.hitachi.co.jp/hirt/publications/hirt-pub09003/dm_usb_autorun.html*

- **Collaboration and feedback of outcome within a community and among the communities are needed!**
- **WARP's community concept is aligned to ours... Although language and distance separate us, devotion to security ties us together!**
- **We hope to find ways to help each other and contribute to the world to a more secure society.**

Thank You!!
